

Joint European-Latin American
Universities Renewable Energy Project

www.jelare-project.eu

*Fostering innovative labour
market-oriented educational &
research approaches in the
field of Renewable Energy at
Latin American and European
Institutes of Higher
Education*

JELARE Objectives

- To develop and implement labour market-oriented research and educational approaches in the field of renewable energy
- To increase the capacity of university staff to modernise their educational and research programmes and activities
- To strengthen the link of universities with the labour market, business and public sector in the field of renewable energy
- To establish a long-term partnership and network between European and Latin American universities
